

An Introduction to Linda Ballard

This will be Linda's 17th quilting cruise she has taught on and she's excited to have you join her?

Linda has been sewing throughout her life, moving from clothing to the quilting world. Linda has been a quilt shop owner, a designer and writer for fabric companies, writes and publishes her own patterns.

Linda is known for her patterns which she calls workbooks. These workbooks will have all the written information as well as graphics that you need to complete the quilt. Currently she has over 80 patterns and develops more every year.

Linda's classes are very low-key She likes interacting with her students; she is a hands-on teacher and she never lacks for compliments, a pat on the back, or a smile. She always ends her writings and class with one word, "ENJOY!"
